

Computer Science and Engineering Department, SVNIT, Surat.
End Semester Examinations, May 2022
B.Tech. III (CSE), 6th Semester
Course: Cloud Computing (CS326)

Date: 05/05/2022

Time: 12:00hrs to 15:00hrs

Max Marks: 50

Instructions:

- Please start the answer to each question on new page ONLY of your answer sheets.
- Please write your correct exam number without fail on the answer sheets as well as on the question paper.
- Please be brief and to-the-point in the attempting the answers to the theory questions. Unnecessary and unjustified elaboration will not fetch more marks.
- The hallmark of an answer to a short question indeed is its brevity.

Q.1 Answer the following:

- | | | |
|---|--|----|
| 1 | Draw and explain the execution flow of CloudSim simulator along with its architecture. | 06 |
| 2 | Differentiate between
(1) virtualization and multiprocessing
(2) SOAP and REST web services | 06 |
| 3 | What is Hypervisor? How instructions from guest OS executed on physical shared infrastructure through hypercalls in para virtualization. | 04 |
| 4 | Draw and Explain the architecture of Hadoop Distributed File System. | 04 |

Q.2 Answer the following:

- | | | |
|---|--|----|
| 1 | Explain the following terms in brief:
(a) HPC
(b) Cluster computing
(c) WSDL
(d) Grid computing | 08 |
| 2 | Draw and explain cloud reference model in detail. | 04 |
| 3 | Which cloud deployment model is preferred for organizations having a shared concern/goal? Write its characteristics, advantages and disadvantages. | 04 |
| 4 | Explain any four limitations of SaaS and IaaS in detail. | 04 |
| 5 | Differentiate between cloud vulnerabilities and threats. Explain any two threats on the cloud environment in detail. | 06 |
| 6 | Compare and contrast: Cloud Computing and Distributed Computing | 04 |
